In the Matter of the Application of OnePoint Communications-Colorado, L.L.C., d/b/a Verizon Avenue, for a Certificate of Public Convenience and Necessity To Offer Competitive Resold and Limited Facilities-Based Local Exchange Carrier Services and Access Services in the State of California.

Application 01-05-033
(Filed May 14, 2001)

O P I N I O N

I. Summary

OnePoint Communications-Colorado, L.L.C., d/b/a Verizon Avenue (Applicant) seeks a certificate of public convenience and necessity (CPCN) under Pub. Util. Code § 1001 for authority to provide limited facilities-based and resold local exchange telecommunications services as a competitive local carrier (CLC).¹ By this decision, we grant Applicant authority to operate as a provider of local exchange services in the service territories of Pacific Bell Telephone Company (Pacific), Verizon California, Inc. (Verizon), Roseville Telephone Company (RTC) and Citizens Telecommunications Company of California, Inc. (CTC).

¹ A CLC is a common carrier that is issued a CPCN to provide local exchange telecommunications service for a geographic area specified by such carrier.

II. Regulatory Background

In Decision (D.) 95-07-054, D.95-12-056, and D.97-06-107, we established procedures to govern applications for authority to offer competitive local exchange service within the service territories of Pacific and Verizon. Applicants that are granted authority to provide competitive local exchange service must comply with various rules established by the Commission, including: (1) the consumer protection rules set forth in Appendix B of D.95-07-054; (2) the rules for local exchange competition set forth in Appendix C of D.95-12-056; and (3) the customer notification and education rules adopted in D.96-04-049.

By D.97-09-115, we extended coverage of our adopted rules for local exchange competition to the service territories of Roseville Telephone Company (RTC) and, Citizens Telephone Company of California, Inc. (CTC).

III. Overview of Application

Applicant, a Delaware limited liability company, filed its application on May 14, 2001. Applicant is an affiliate of Verizon. In its application, Applicant requests authority to operate as a limited facilities-based and resale provider of local exchange services within Pacific, Verizon, RTC and CTC's service territories.

IV. Procedural Background

In Resolution ALJ 176-3064 dated May 24, 2001, the Commission preliminarily categorized this application as ratesetting, and preliminarily determined that hearings were not necessary. No protests have been received. There is no apparent reason why the application should not be granted. Given these developments, a public hearing is not necessary, and it is not necessary to disturb the preliminary determinations.

V. Comments on Draft Decision

This is an uncontested matter in which the decision grants the requested relief. Therefore, pursuant to Pub. Util. Code § 311(g)(2), the otherwise applicable 30-day period for public review and comment is being waived.

VI. Financial Qualifications of Applicant

To be granted a CPCN for authority to provide facilities-based and resold local exchange service, an applicant must demonstrate that it has \$100,000 cash or cash equivalent to meet the firm's start-up expenses. The applicant must also demonstrate that it has sufficient additional resources to cover all deposits required by other telecommunications carriers in order to provide service in California.² Applicant provided a guarantee from its direct corporate parent, Verizon Avenue Corp., which demonstrates that it meets the financial requirements.

VII. Technical Qualifications of Applicant

To be granted a CPCN for authority to provide local exchange service, an applicant must make a reasonable showing of technical expertise in telecommunications or a related business. Applicant supplied biographical information on its management that demonstrates that it has sufficient expertise and training to operate as a telecommunications provider.

Applicant represents that no one associated with or employed by Applicant or its direct corporate parent, as an, officer, director, or member of Applicant held such a position with a telecommunications carrier that filed for

² The financial standards for certification to operate as a CLC are set forth in D.95-12-056, Appendix C, Rule 4.B.

bankruptcy or went out of business, or was sanctioned by the Federal Communications Commission or any state regulatory agency for failure to comply with any regulatory statute, rule, or order.

We find that Applicant has met our requirement that it possesses adequate technical expertise to operate as a CLC.

VIII. Tariffs

Commission staff reviewed Applicant's draft tariffs for compliance with Commission rules and regulations. The deficiencies are noted in Attachment B of this decision. In its compliance tariff filing, Applicant is directed to correct these deficiencies as a condition of our granting approval of its tariffs.

IX. California Environmental Quality Act (CEQA)

The CEQA requires the Commission as the designated lead agency to assess the potential environmental impact of a project in order that adverse effects are avoided, alternatives are investigated, and environmental quality is restored or enhanced to the fullest extent possible. Since Applicant states that it will not be constructing any facilities for the purpose of providing local exchange services, except for equipment to be installed in existing buildings or structures, it can be seen with certainty that there is no possibility that granting this application will have an adverse impact upon the environment. Applicant must file for additional authority, and submit to any necessary CEQA review, before it can construct facilities.

X. Request for Confidentiality

Applicant requests that the financial information filed with this application, and with a motion for confidential treatment filed June 20, 2001, be filed under seal. The financial information consists of the parent's consolidated

financial statements and portfolio statement, and Applicant's estimated customer base for its first and fifth years. Applicant represents that the information is proprietary and sensitive. The information, if revealed, would place Applicant at an unfair business disadvantage. We have granted similar requests in the past and will do so here.

XI. Conclusion

We conclude that the application conforms to our rules for certification as a CLC. Accordingly, we shall grant Applicant a CPCN to provide limited facilities-based and resold local exchange service in the service territories of Pacific, Verizon, RTC and CTC subject to compliance with the terms and conditions set forth herein.

11. By D.95-12-057, as modified by D.97-01-015, CLCs are exempt from Pub. Util. Code §§ 816-830.

5. The application should be granted to the extent set forth below.

6. Applicant, once granted a CPCN to operate as a CLC, should be subject to the Commission's rules and regulations regarding the operations of CLCs as set forth in D.95-07-054, D.95-12-056, and other Commission decisions.

7. Any CLC that does not comply with our rules for local exchange competition adopted in Rulemaking (R.) 95-04-043 shall be subject to sanctions including, but not limited to, revocation of its CLC certificate.

8. Since Applicant does not propose to construct any facilities, except for equipment to be installed in existing buildings or structures, it can be seen with certainty that granting it authority to provide local exchange services will not have a significant adverse effect upon the environment.

9. Because of the public interest in competitive local exchange services, the following order should be effective immediately.

10. Applicant's request to file its financial information under seal should be granted for two years.
